Here's how you can renovate your dining room, kitchen or office into a livelier one! We bring you the premium quality dining table carefully crafted using pine with a fixed flat pack and a semi-gloss chunky rustic industrial finish on metal frame box legs finish. Choice of 3colours from Dark Brown Varnish, Yellow Birch or White Ash

Why Choose this Pine Industrial Style Chunky Solid Wooden

Table/Desk?

Please keep in mind that this is not reclaimed wood. We use solid Uruguay pine wood that delivers an exquisite natural wood pattern - and as a natural product variation in shade and size does occur so please bear in mind the thickness after hand sanding can be from 40-50mm. Natural wood has characteristics that include cracks in the wood, knots, mineral deposits, inclusions, as well as grain and pigment variations (sometimes filler or a patch is required). Therefore, we appreciate the beauty of nature and bring it to our customers.

Worried about durability?

Your comfort, as well as durability, are our priority! We have pre-installed a strong steel box section industrial frame powder coated black supports the worktop with height-adjustable feet to level on any surface.

Difficulty during assembling?

No worries, we got you! This table is easy to assemble as no extra tools is required as the spanner and bolts for basic quick 5 minute assembly are included out of the box - PLEASE NOTE - DUE TO THE SIZE AND WEIGHT OF THE NATURAL WOODEN WORKTOP CIRCA 40KG, WE RECOMMEND A 2 PERSON INSTALL/BUILD TO AVOID DAMAGEORINJURY - WE CANNOT BE HELD LIABLE FOR ANY DAMAGE THAT OCCURS FROM BUILDING ORPOSITIOMNING THE TABLE/DESK AFTER RECEIVING THE DELIVERY
