Stainless Steel - do not corrode

- Clip dimensions: 40 x 23 x 12 mm (W x D x H)
- Inserted depth: 6 mm
- Inserted height: 8-11 mm

LOOKING TO PURCHASE DECKING - CLICK HERE

Note: Composite materials are made from 65% recycled hardwood, making this a natural product. As these are produced in batches, there may be slight colour tonal variation between boards therefore we advise purchasing all of the boards you need at the same time. We also recommend laying the boards out prior to installation in order to identify and create a subtle blend of any lighter or darker tonal variances
