- [MOISTURE RESISTANT] MDF architraves are resistant to warping and swelling, suitable in a range of rooms & environments from kitchen & bathroom to office & commercial applications
- [PRE-PRIMED WITH 2 COATS OF HIGH ADHESION PRIMER] Pre-primed architrave board saves you time & money on top coat, smooth surface, ultra-high adhesion primer means quicker top coat, no-preparation required & less waste, spillage / drips (note - light sanding between coats may be required - please check the paint manufacturers instructions for more details) & unlike traditional pine / oak skirting boards, MDF architrave board benefits from no knots or imperfections (note, only primed on 2 sides: top edge and front face - not rear / bottom edge)
- [RANGE OF SIZES & PROFILES] MDF architrave mouldings - 3m x 65mm x 15mm - suits a range of our other MDF wood furniture such as MDF door liners, MDF skirting boards
- [SUPPLIED IN 3M LENGTHS - 65mm x 15mm] Our research shows 3m lengths of MDF architraves are the optimum length in terms of practicality moving around tight spaces, suiting a range of door sizes as well as reducing wastage in cuts thus

saving costs - for runs longer then 3m simply cross-cut, butt & fill for a seamless finish

- [EASY TO INSTALL & MAINTAIN] MDF architrave mouldings can simply be installed with screws, nails or pins, when used in combination with an adhesive. Easy material to fill, sand & paint over fixings - long term once painted with gloss or acrylic, MDF board offers low maintenance, easy to clean and versatile for years to come
