What is a vanity surround trim?

When you install the door, you will inevitably get a small gap between say the block work or timber and the steel frame of the door on the reveal. This can be filled with silicone or expanding foam etc. The Vanity surround trim cover as a 3 pc kit of Angled steel (the same material + powder coated the same colour as the door) which is inserted between wall and door and fixed, using the return edge to essentially hide or make good this gap, thus removing the need for silicone etc. to tidy up this edge. This is an optional aesthetic part, supplied in 3 pcs (ie. 2 legs, 1 header) which you can custom cut to size to suit your installation (note - we recommend cutting the header piece to size first, then inserting the legs to get a clean edge. The legs should cut to size at ground level.

Door Frame Material	Upgraded 1.8mm Galvanised Steel	Door Frame Thickness	90mm	Door Leaf Material	Double skinned 0.8mm galvanised steel	Door Leaf Thickness	45mm	Door Leaf Core	50mm Mineral Wool Insulation	Actual Door Size	1995mm x 800mm	U Value	2.6	Acoustic Value	32dBa	Hinges	4 Stainless steel ball bearing hinges	Lock Cylinder	Eurocylinder 90mm (45 - 45)

- *NOTE: due to manufacturing tolerances with regards to batch variation, we recommend ordering all coloured/powder coated doors for a project at the same time, from the same batch as we cannot be held responsible for any variation that occurs between batches.*
- *Must be installed by a competent persons, we are not able to train, teach any DIY enthusiast how to fit a door correctly. Whilst its not a difficult job, each individuals competency and skill set varies and thus professional knowledge is advised to fit this product correctly, safely and securely for normal operation.*
- *Note - door includes mechanical / moving parts such as lock mechanism, hinges, latches and as such requires regular maintenance and upkeep in the form of regular lubrication/oil applying.*
