Upgrade your outdoor space with our premium **Aluminium Garden Gate Modern Slatted Design**, engineered for both style and long-term performance. Finished in contemporary **Anthracite Grey (RAL7016)** or **Black (RAL9005)**, this sleek slatted aluminium gate is the perfect addition to modern gardens, driveways, and side entrances across the UK.

Manufactured from high-quality, rust-resistant aluminium, this gate offers exceptional durability without the ongoing maintenance required by timber or steel alternatives. The horizontal slatted design provides a clean, architectural look while maintaining privacy and airflow, making it ideal for residential and light commercial applications.

Designed with practicality in mind, this **low maintenance aluminium garden gate** will not warp, rot, or corrode, ensuring it looks great year after year with minimal upkeep. Its powder-coated finish enhances weather resistance and colour longevity, even in harsh UK conditions.

Perfect for homeowners, landscapers, and trade professionals, this **modern aluminium garden gate UK** combines strength, security, and contemporary design in one reliable solution.

Key Features:

- Premium aluminium construction lightweight, strong, and corrosion-resistant
- Modern slatted design for privacy and airflow
- Available in Anthracite Grey (RAL7016) or Black (RAL9005)
- Powder-coated finish for long-lasting colour and protection
- Low maintenance no painting, staining, or rusting
- Ideal for gardens, patios, driveways, and side access points
- Suitable for residential and trade installations

Enhance your property with a **durable, stylish aluminium garden gate** built to perform in all weather conditions while delivering a clean, modern finish.

Note: distance between brackets ie top bracket + floor is 1685mm which allows for 1650mm gate + 30mm floor bracket. Floor should be level and flat before installation. If fitting wall brackets top + bottom, allow 1655mm gap between both brackets.
