UK's LEADING TILE BACKER BOARD SUPPLIER

Tile Board Shower Niche Installation – 10mm

5pm CUT OFF TIME. **NEXT DAY DELIVERY BULK DISCOUNTS.**

- 1. Determine desired height of niche and draw level line on wall substrate layer (ideally 12mm for ease).
- 2. Cut along line and remove top substrate layer. If necessary, install horizontal cross bracing to support Niche.

- 3. Use waterproof Sealant to adhere Niche to studs.
- 4. Seal joints between Niche and backer board with waterproof Sealant.
- 5. Secure to stud work with screws & washers as per tile board.
